is practiced by us in every way. There have been great improvements in the last few years in the making of medicines. The preparations you take to-day are more elegant in looks, more palatable, and, while milder in action, are just as effective as the old nostrums that were actually nauseating. We have kept step with the times and the medicines you purchase of us will be found of superior quality, as they are scientifically prepared.

Due to an Engineer's Grit.

Columbia, October 7.—The Seaboard's through South-bound passenger train No. 31, due here at 10 15 a. m., on the way from the North to Florida, had a thrilling escape this morning from destruction, through a burning bridge, spanning Jumping Gulley, 60 feet high and 200 feet long, between Lugoff and Blaney Station, near Camden. The only warning the engineer and crew had was the smoke and flame they sighted 200 yards away, as the train was rounding a curve, running forty-five miles an hour. The engine was reversed and the emergency brakes were applied. The engineer got his machine under control within a car length of the north side of the bridge, where the fire was concentrated and where twenty feet had been burned out. There was joy in that crowd of passengers, numbering about fifty, and they are eloquent in their praise of the splendid work of Engineer D. K. Wright, and Conductor Walter Gibson and others. While the conductor walked back five miles to get a telegraph station, the crew and the passengers got out and quickly organized a fire brigade, which fought the flames on the bridge with great energy and finally succeeded in extinguishing them. Among the best fighters were a coach full of Italian cigarmakers and their families, bound for Ybor City, Florida. The passengers passed resolutions commending the engineer and crew. The train was running an hour late, and was tied up at the bridge over six hours. It was finally brought on over the bridge, which a wrecking crew patched up. The train was made up of a mail car, express car, diner, sleeper and two day coaches. Plans to Get Rich Are often frustrated by sudden breakdown, due to dyspepsia or constipation. Brace up and take Dr. King's New Life Pills. They take out the materials which are clogging your energies, and give you a new start. Cure headache and dizziness, too. At all drug stores; 25c, guaranteed. Still More Grafting. Columbia, October 6.—Governor Heyward to-day suspended another County Treasurer for grafting, the guilty man this time being J. M. Whetsell, who, as treasurer of Dorchester county, is over \$2,000 short on account of apparent fictitious entries as credits. "Because he paid claims before warrants were issued," and because his "books are full of errors and omissions."

News from Clemson College.

Clemson, October 7.—The first number of the lyceum course this year will be given October 13, at 8 p. m., by Miss Lena Duthie, of New York, assisted by Miss Margaret Daniel, and will consist largely of familiar Scotch and Irish songs and melodies. The course for the year is about completed and is as follows: Miss Duthie and Miss Daniel, October 13; Schubert String Quartet, November 24; Dr. George E. Vincent, University of Chicago, December 8; Katherine Ridgeway Concert Co., January 13; Congressman David DeArmond, February; Dr. Penniman, dean of the faculty of the University of Pennsylvania, March; Miss Mamie Harrison, Richmond, date not fixed; Marco, the magician, date not fixed; the Temple Quartet, Eli Perkins, and Thomas E. Watson may be added to the list. There is much anxiety over the approaching football game here next Saturday, the 14th, with the team from the University of Tennessee. The weather was so hot and the athletic field so dusty all this week that little real work could be done. This week has seen strenuous work and much improvement, but there have been discouragements. J. C. Boesch, who was one of the most promising men in the field, had his foot broken in a scrimmage Tuesday and will not be in a game this year. He was a strong player. McCown, the big guard of 1903, has returned to College, but he has been sick with chills ever since he came, nearly, and he has been granted and honorable discharge. His going is a loss to the team. Manager Cad Coles, of Columbia, has completed his schedule and feels sure of a long list of victories. W. D. Weatherford, college Y. M. C. A. secretary of the Southern colleges and universities, held a series of meetings here last week which resulted in much good. Sunday night a canvass was made for new members and scores of names were added to the list. The young men hope soon to have their hall neatly fitted up on the third floor of the main building. Sick headache is caused by a disordered condition of the stomach and is quickly cured by Chamberlain's Stomach and Liver Tablets. For sale by J. W. Bell, Walhalla, and W. J. Lunney, Seneca. Millikens Win in Laurens Case. Asheville, N. C., October 7.—Judge Pritchard to-day granted an injunction in the case of S. M. Milliken and others vs. W. E. Lucas and others, restraining the defendants from proceeding against the complainants further in the State courts of South Carolina and from interfering otherwise with the complainants. The practical effect of the order, it is said, will be to give Milliken control of the Laurens cotton mills, for which he and Lucas have been contending, since under it Milliken gains control of a majority of the stock, a large block of which has been in dispute. Georgia Negro Lynched by Negroes. Bainbridge, October 8.—News has just reached Bainbridge of the lynching of a negro to-day, eight miles west of here by a mob of his own race. The negro had criminally assaulted a negro girl and had attempted to assault another who cut him in the breast. He was arrested by Deputies James Ivey and Murkerson, who were bringing him to Bainbridge, when they were stopped by a mob of negroes who said they must have the negro. They got him and forced the deputies to go away on another road. The negro was strung up to a tree and riddled with bullets. The victim was an ex-convict. Record for Eating. Congaree, October 7.—A colored man by the name of July Richardson one night this week ate 18 cans of sardines, two boxes of potted ham in the course of one hour, which beats the record for quick and heavy eating.

THE NEWS FROM SENECA.

Seneca, October 10.—W. P. Nimmons lost his barn and contents last night by fire between 10 and 11 o'clock. Two horses also perished in the flames. When the alarm was given the fire already appeared to be well underway and the attention of the citizens, who arrived promptly, was turned to the residence. Heroic work was done with buckets. Regret at the horrible death of the faithful family horses, who in the excitement refused to come from their stables, is heard on every side. The origin of the fire is unknown. THE WINTER STOCK COMPANY AT THE OPERA HOUSE. This popular company is showing here, and at the opening play last night a fine house greeted the performers. The play, "A Carolina Girl," with the star, Miss Dorothy Wallace, was well supported. The specialties and music are good, and it was a great disappointment to the audience that the alarm of fire interfered with the performance in the third act. To-night the sensational comedy, "A Man of Honor," will be presented, and Wednesday afternoon at 3.30 p. m., a matinee performance will be given, affording the children and mothers an opportunity to go. "Baby Hope" made a great hit, being a beautiful child of about 6 years and well trained. The Winter Stock Company will continue showing here through Wednesday night, giving a fine opportunity to theatre goers to see a number of their best plays. THE GREENVILLE CONVOCATION. The Greenville Convocation met last evening at the Church of the Ascension here, at 7.30 o'clock. A splendid sermon was preached by Dr. R. C. Jeter, of Anderson. Harrel had previously announced his appointment at Tugaloo for the third Sabbath. The congregation will please note the change to the fifth Sabbath. A. L. Gossett. Some Seasonable Advice. It may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before winter is over, and much more prompt and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy at hand. This remedy is so widely known and so altogether good that no one should hesitate about buying it in preference to any other. It is for sale by J. W. Bell, Walhalla, W. J. Lunney, Seneca. News from New Hope. New Hope, October 9.—Our regular pastor, Rev. W. C. Seaborn, assisted by Rev. Atkerson, of Pickens, administered the Lord's supper Sunday to a large and interested crowd. Mrs. Sallie Dobbins, of Anderson, visited her father, J. C. Alexander, s. g. A Judicious Inquiry. A well known traveling man who visits the drug trade says he has often heard druggists inquire of customers who asked for a cough medicine, whether it was wanted for a child or for an adult, and if for a child they almost invariably recommend Chamberlain's Cough Remedy. The reason for this is that they know there is no danger from it and that it always cures. There is not the least danger in giving it, and for coughs, colds and croup it is unsurpassed. For sale by J. W. Bell, Walhalla, and W. J. Lunney, Seneca.

TEN THOUSAND LIVES LOST.

Chinese Suffer Terribly by Typhoon—Many Islands Cleared of Their Inhabitants. Victoria, B. C., October 3.—The steamer Tartar, which arrived last night from the Orient, brought the news from Shanghai that the loss of life of the natives of the island at the mouth of the Yang-Tse river, as a result of a typhoon at the beginning of September, was tremendous. The North China Daily News, of Shanghai, says: "To the east of Tamagming, two islands, one called Yaowshwa, the other Shihiousha, distant about 20 miles from Woosung, have suffered much from the typhoon, nearly all the inhabitants having been swept away. "The islands have only been inhabited for a short time, as they are of recent formation, and are not much above high water mark. It is reported that nearly 10,000 people have been drowned on these two islands and the smaller islands adjacent. Tamagming itself has not suffered much, being well above the high water mark. "The Shanghai papers say that the damage to the Canadian Pacific railroad liner, Empress of Japan, by the typhoon will necessitate the expenditure of \$100,000 for repairs. During the storm the steamer Pechili, formerly the Rio Grande du Sol, foundered near the mouth of the Yang-Tse. Her crew of fifty-four was saved by the German steamer Alenga, whose officers and crew did heroic work, but the Chinese were drowned. How to Cure Corns and Bunions. First, soak the corn or bunion in warm water to soften it; then pare it down as closely as possible without drawing blood and apply Chamberlain's Pain Balm twice daily, rubbing vigorously for five minutes at each application. A corn plaster should be worn a few days to protect it from the shoe. As a general liniment for sprains, bruises, lameness and rheumatism, Pain Balm is unequalled. For sale by J. W. Bell, Walhalla, and W. J. Lunney, Seneca. Young Boy Kills Another. Sumter, October 7.—Herbert Vaughan, aged fourteen shot and killed Hargrave Frierson, aged thirteen on the coca-cola platform to-night at 9 o'clock. The bullet entered the right temple and came out back of the left ear. Death was instantaneous. Frierson is the son of A. M. Frierson, D. D., president of Kendall institute. It is said that the killing was accidental, Vaughan claiming that he did not know the pistol was loaded. Vaughan has run away and the police are looking for him. Frierson was an intelligent, popular boy. Edgefield County Treasurer Reinstated. Columbia, October 7.—After a conference with Clerk of Court Cogburn, of Edgefield, to-night, Governor Heyward reinstated Treasurer J. T. Patterson, whom he removed a few days ago for being short because of confusion in his accounts. Mr. Patterson had made a deposit to fully cover his shortage, which he claims is due to a difference between him and the Farmers' Bank. There was no charge of criminality against Mr. Patterson, and the legislative delegation and his bondsmen unanimously recommended his reinstatement, expressing implicit confidence in his integrity and honesty. Japan's Big Debt. Tokio, October 7.—Count Okuma, formerly prime minister, in an address yesterday before the Associated Chambers of Commerce made a lengthy reference to the financial situation. He said that when the army is disbanded Japan's debt will be \$1,250,000,000. The interest on this debt will be about \$75,000,000 annually, or nearly twice the revenues of the government ten years ago. Prior to the outbreak of hostilities the per capita tax was \$2. The cost of the war caused it to be raised, and at the present time it is \$6. The per capita share in the national debt is now \$25, whereas before the war it was only \$6. Dispensary School Money. Columbia, October 7.—The Comptroller General is receiving frequent requests for dispensary school money. He cannot send it, because he cannot get the money, and has none on hand. The dispensary authorities promised to turn the school profits for this year over the latter part of September or the first of October, but it has not yet been turned over to him, and he wishes the school authorities to understand that the failure to send the money out is due entirely to the fact that it has not been turned over to him. The dispensary has not turned over a cent of this year's profits from the dispensary for the use of the schools.
